

Level III:

Depression Education & Suicide Awareness

Lesson 1

Pre-Test: http://elhhs.info

Term/Definition Matching Activity

- You will receive a card with a term or definition
- Find your "match"
- Stay with your "match" until we debrief as a class

Adapted Activity

In your groups, match the terms with the defintion

Directing someone in need of something for a review, further support or help.

Mental health provider

Student Packets

LESSON 1 STUDENT PACKET

Welcome to The Erika's Lighthouse Program: Depression and Suicide Awareness for High School Students.

This program was inspired by a young person named Erika. Erika was a bright light who, sadly, lost her battle with depression in 2004 at age 14. Erika's Lighthouse was founded in her honor and is dedicated to helping other young people learn about depression and overcome the stigma surrounding mental health disorders.

This program will teach you the following information and help you develop the skill of accessing information. This means you will be able to access valid and reliable health information (a website), resources (a self-assessment, book or pamphlet), products (yoga mat, eye pillow) and people (counselor or therapist) when you or someone you know needs them.

BY THE END OF THIS 4 LESSON PROGRAM,

- Define that depression is a common mood disorder with specific changes in moods, thoughts and behaviors.
- · Explain that depression can happen to anyone, anywhere.
- Explain that there is not one reason someone has depression.
- · Recognize that depression can get better and you can find support.
- · Explain that good self-care is a key piece to managing depression.
- Describe that self-harm and suicidal thoughts are symptoms of depression that we must take very seriously.
- Practice accessing valid and reliable information to support a friend who has depression.

D Erika's Lighthouse, Inc. 2020

- 1. Open your packet
- 2. Read the Introduction and objectives
- 3. Review the next page with the terms/definitions we just learned.

PROGRAM OBJECTIVES

By the end of this 4-lesson program, I will be able to...

- Define that depression is a common mood disorder with specific changes in moods, thoughts, and behaviors
- Explain that depression can happen to anyone, anywhere
- Explain that there is not one reason someone has depression
- Recognize that depression can get better and you can find support
- Explain that good self-care is a key piece to managing depression
- Describe that self-harm and suicidal thoughts are symptoms of depression that we must take very seriously
- Practice accessing valid and reliable information to support a friend that has depression

Video Part #1 (0:00-10:42)

Level III:
Depression Education &

Suicide Awareness

- What words or themes stood out to you?
- What information concerned you about what you heard?
- Do you think there are students in our school community that have depression?
- Knowing that students in our school may have depression, what does that mean for our school community?
- What are some mental health health resources (meaning information) or people in our community that can help someone that is feeling depressed?
- How do you think students with depression might be taking care of themselves?

Post Video Questions

Access Valid & Reliable The above Resources

The ability to identify, obtain and make use of information effectively.

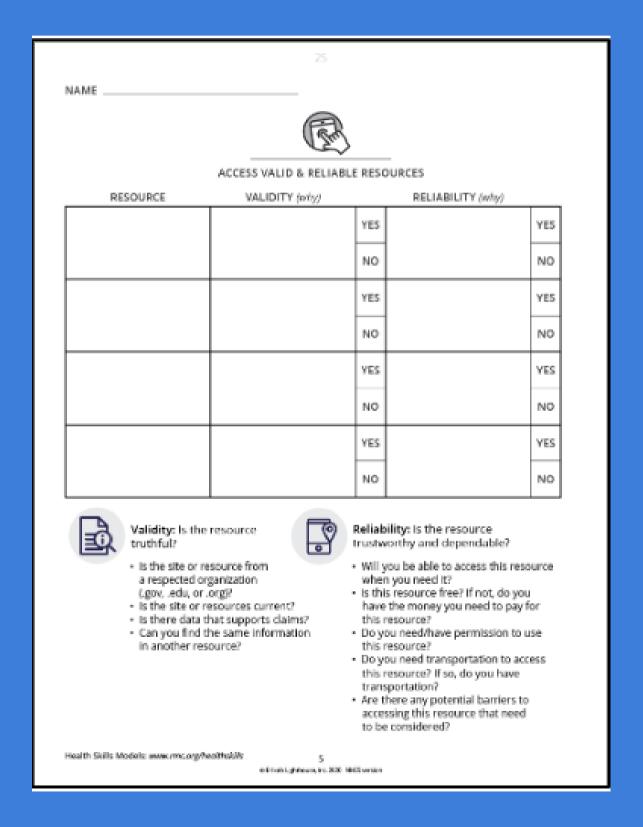

Validity & Reliability

Is the resource truthful?

Reliability:

Is the resource trustworthy & dependable?

Learn About Depression

Prevent Depression

Treat Depression

Thrive with Depression

Help Someone

Thrive with Depression

If you think you may have depression, talk to a trusted adult. If you have been diagnosed with depression, the first step is to seek treatment from a professional. However, there are other measures you can take on your own to reduce the impact of depression symptoms in addition to therapy.

Many of these same steps can help you to improve your ability to manage everyday life stressors and reduce factors that may be putting you at risk for future mental health struggles. Check out our <u>Managing Your Depression</u> handout.

Exercise

It may seem impossible to workout while battling depression, but finding the will may be just what is needed. Studies have indicated that exercise may be just as effective as some medications. However, only you know your body and what is ultimately best.

Harvard Medical School has a few tips to get started.

Here are some additional ways to find motivation.

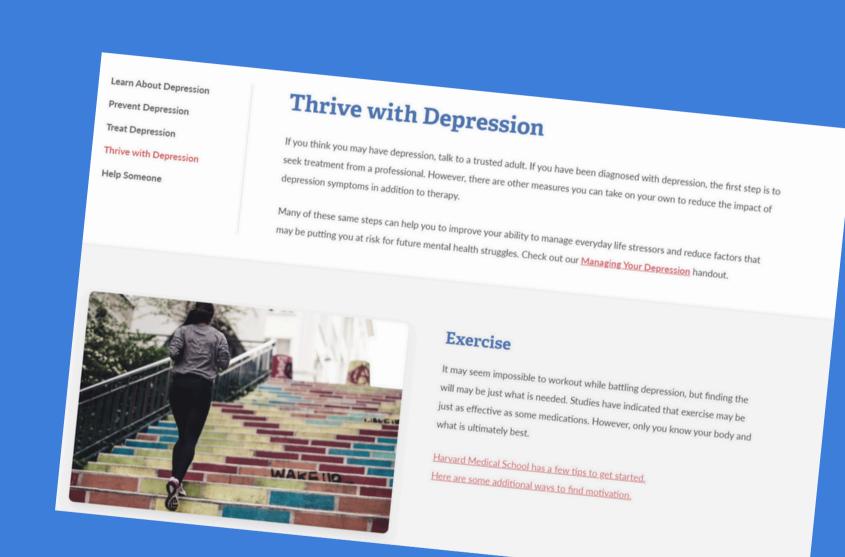

Why is this Page Valid & Reliable?

VALID

- Information on the page is up-to-date.
- There is a lot of information including:
 exercise, nutrition, sleep, avoiding other drug
 use, being mindful, practicing STOP and doing
 what you love

RELIABLE

The purpose of Erika's Lighthouse is clear;
 They are not selling anything/not an advertisement

Closure

Today we:

Defined depression as a common mood disorder with specific changes in moods, thoughts and behaviors

Explained that depression can happen to anyone, anywhere

Learned how to use validity and reliability checklists to access information on depression

Recognized that depression can get better and you can find support

Explained that there's not one reason someone has depression
