You will learn...

- Depression is a mood disorder
- Signs & symptoms of depression

Hey Mom,

Can we talk?

YOU:

Hey, Mom, can we talk?

MOM:

Sure. What's going on?

YOU:

Lately, I haven't been feeling like myself. I feel sad and angry all the time. I'm constantly tired, and I can't focus in school.

MOM:

I've gone through periods like this when I was your age. Hang in there and I'm sure things will get better with a little time.

YOU:

Well, usually when I'm down I feel better if I go for a run or talk to someone. This time I can't seem to shake it. It's been like this for a few weeks now. I even took a depression test online and it reported that I should see a doctor to get it checked out.

MOM:

Really?

YOU:

Yeah, I think I need to talk to someone. Can you help me set up an appointment with my doctor?

MOM:

Sure. I think that's a great idea.

Hey Sam,

Can we talk?

SAM: Hey, can we talk? Over the past few weeks, I've noticed you've been hanging back a lot – not calling or texting me much anymore and skipping out on me and our friends. Recently, you have even missed quite a few play practices. In general, you seem down. This isn't like you. What's going on?

FRIEND: I'm sorry; I've been feeling weird lately.

SAM: I can tell something is different. I'm worried about you and I care.

FRIEND: You don't have to worry. I'm sure I'll snap out of it, eventually.

SAM: You deserve to feel better now and, who knows, it could be something serious like depression. Have you told an adult yet?

FRIEND: No.

SAM: An adult should know so they can help you find a professional to check it out. Who do you feel comfortable talking to?

FRIEND: I guess, Mr. Clark.

SAM: I think he's a great choice. Would you like me to come with you? It might make you more comfortable.

FRIEND: Uh, sure. Yeah, I'd like that
