

Self Care Planning Guide

Self Care is about actively looking after your mental health and wellbeing. Practicing self-care allows you to effectively support the young people you work with.

Often, the term self-care can elicit negative emotions as we already feel like we do not have time to do all the things we "need" to do.

We encourage you to use this planning guide as a "what can I do" tool rather than a "must do".

Feel free to add your own ideas too!

Things to Think About

What can I do to make this successful?

Am I setting realistic goals?

How will I feel if I am able to succeed?
